

# Measurement Science and Technology

**Outstanding Paper Award 2006**

## IS PRESENTED TO:

**H Hu<sup>1</sup> and M M Koochesfahani<sup>2</sup>**

<sup>1</sup> Department of Aerospace Engineering,  
Iowa State University, USA

<sup>2</sup> Department of Mechanical Engineering,  
Michigan State University, USA

## FOR THE ARTICLE:

Molecular tagging velocimetry and thermometry  
and its application to the wake of a heated  
circular cylinder

Measurement Science and Technology  
Volume 17, pp 1269-1281

**Professor Peter Hauptmann**

Editor in Chief

Measurement Science and Technology

30 May 2007

Dear Dr Hu,

**Measurement Science and Technology Outstanding Paper Award 2006**

I am writing to congratulate you and your colleagues for winning the Measurement Science and Technology Outstanding Paper Award 2006, and am delighted to enclose 2 certificates for presentation to you and your colleagues, and also to inform you that your prize – a cheque for GB £100 – will be forwarded on in separate post in due course.

We would like to publicise the presentation of your award on Measurement Science and Technology's website, so if during your presentation any photographs are taken, I would very much appreciate it if you could email me a photo so that it can be placed in a news article online.

Congratulations once again for your achievement and I hope you will consider Measurement Science and Technology as a publishing outlet for your future work.

I look forward to hearing from you shortly.

Zoe Anderson
